EXPERIENCE

Ottenheimer Library — Stacks Technician

August 2017- January 2018

This was a work study position during my freshman year at UALR. This job gave valuable skills in database management as well as customer service skills through helping library patrons.

Weedbusters of Arkansas — Temporary IT Development

May 2019- August 2019

Summer job in Monticello Arkansas. Weedbusters is a small company that does weed and Pest spraying across Arkansas. I got in contact with them and revamped their invoices and created an application for them to help organize their customer base while working.

TRiO SSS — Tutoring services

Jan-2020-March 2020

Part time job, consists of tutoring fellow college students. Tutoring mostly math and programming courses. Extremely flexible hours to prevent collision with any other work.

Project One Workday Integration - Tech Intern

Jan-2020-Now

Tech intern working in data integrations with the UofA system administration office. Large scale project in office environment. Work requires presenting project phases and doing database maintenance and cloud based integrations. Work from home has turned this into a full time job, running many integrations and calls throughout the day.

EDUCATION

Monticello High School, Monticello Arkansas — High School Diploma

Graduation: May 2017

University of Arkansas at Little Rock — *Bachelors of Science in Information Science*

August 2017-Currently

Current Senior in information science with a minor in management.
